

Pilot/Escort Driver Certification Class Company or Group Interest Form

RSA Network Inc. is an approved provider of the Utah and Colorado Department of Transportation Pilot/Escort Driver Certification program. As such, we often receive requests to hold a certification class in areas outside the State of Utah and Colorado.

Generally, for a class to be considered for your company/group, a minimum of 20 people are necessary to cover the general costs of conducting a class. However, we are always open to discuss this and look at all of the options.

Before you complete and submit this form, consider that we must evaluate a number of issues before we can commit to holding a course for your company or group. Some of these items are: Meeting space costs and availability, Refreshments and location to eating establishments, Travel for instructors to your area/location, cost of airfare, rental cars, hotels, number of people that will potentially attend, and our instructors current training schedule. These are a few of the items that we consider before making a commitment to hold a training course.

Please provide the following information about your company/group and fax this completed form to the number listed below. When received, we will evaluate this request and will be in contact with you within 2 days to discuss this request.
